American Journal of Physiology: Gastrointestinal and Liver Physiology

No. 1. JANUARY 1992

EDITORIAL REVIEW

Histamine: mercurial messenger in the gut
P. K. Rangachari G1

Contribution of the large hepatic veins to postsinusoidal vascular resistance
R. Maass-Moreno and C. F. Rothe G14

Studies in vivo and in vitro on effects of PGE_2 on colonic motility in rabbits
R. Burakoff and W. H. Percy G23

Vesicle acidification driven by a millionfold proton gradient: a model for acid influx through gastric cell membranes
J. Barreto and L. M. Lichtenberger G30

Release of cholecystokinin and secretin by sodium oleate in dogs: molecular form and bioactivity
G. Sun, T.-M. Chang, W. Xue, J. F. Y. Wey, K. Y. Lee, and W. Y. Chey G35

Prostaglandin stimulates Cl^--HCO_3^- exchange in amphibian oxynticopeptic cells
A. Yanaka, K. J. Carter, P. J. Goddard, and W. Silen G44

Erythromycin contracts rabbit colon myocytes via occupation of motilin receptors
W. L. Hasler, A. Heldsinger, and C. Owyang G50

Pharmacological characterization of histamine H_3 receptors in isolated rabbit gastric glands
A. Bado, L. Moizo, J.-P. Laigneau, and M. J. M. Lewin G56

Effect of fluid perfusion and cleansing on canine colonic motor activity
S. K. Sarna G62

Distribution of *smg* p25A and *smg* p21s, *ras* p21-like guanine nucleotide-binding proteins, in the rat stomach
K. Matsuda, C. Sakamoto, O. Nakano, Y. Konda, T. Matozaki, K. Wada, M. Kasuga, A. Mizoguchi, A. Kikuchi, and Y. Takai G69

Hypothalamic unitary responses to gastric vagal input from the proximal stomach
C.-S. Yuan and W. D. Barber G74

Influence of acid secretory state on Cl^--base and Na^+-H^+ exchange and pH_i in isolated rabbit parietal cells
U. Seidler, S. Roithmaier, M. Classen, and W. Silen G81

Measurement of hepatic blood flow after severe hemorrhage: lack of restoration despite adequate resuscitation
P. Wang, Z. F. Ba, J. Burkhardt, and I. H. Chaudry G92

Absorption and lymphatic transport of peroxidized lipids by rat small intestine in vivo: role of mucosal GSH
T. Y. Aw, M. W. Williams, and L. Gray G99

Role of nitric oxide as a mediator of internal anal sphincter relaxation
S. Rattan and S. Chakder G107

Pancreastatin inhibits pancreatic enzyme secretion by presynaptic modulation of acetylcholine release
K.-H. Herzig, D. S. Louie, K. Tatemoto, and C. Owyang G113

An inhibitor of Ca^{2+}/calmodulin-dependent protein kinase II, KN-62, inhibits cholinergic-stimulated parietal cell secretion
Y. Tsunoda, M. Funasaka, I. M. Modlin, H. Hidaka, L. M. Fox, and J. R. Goldenring G118

Sucrase-isomaltase gene expression along crypt-villus axis of human small intestine is regulated at level of mRNA abundance
P. G. Traber, L. Yu, G. D. Wu, and T. A. Judge G123

Acetylcholine release from colonic submucous neurons associated with chloride secretion in the guinea pig
N. H. Javed and H. J. Cooke G131

CRF in the paraventricular nucleus mediates gastric and colonic motor response to restraint stress
H. Mönnikes, B. G. Schmidt, H. E. Raybould, and Y. Taché G137

Characterization of the antigen-induced contraction of colonic smooth muscle from sensitized guinea pigs
M. S. Barnette and M. Grous G144

Transport of 5-methyltetrahydrofolate in basolateral membrane vesicles of rat liver
D. W. Horne, K. A. Reed, and H. M. Said G150

Mechanisms of cAMP-mediated relaxation of distal circular muscle in rabbit colon
R. F. Willenbucher, Y. N. Xie, V. E. Eysselein, and W. J. Snape, Jr. G159

Intestinal acid inhibits gastric acid secretion by neural and hormonal mechanisms in rats
S. L. Orloff, N. W. Bunnett, J. H. Walsh, and H. T. Debas G165

Surface hydrophobicity of the intestinal tract
D. R. Mack, A. W. Neumann, Z. Policova, and P. M. Sherman G171

Ontogeny of membrane and soluble amino-oligopeptidases in rat intestine
A. M. Reisenauer, E. A. Lee, and R. O. Castillo G178

Leuprolide acetate affects intestinal motility in female rats before and after ovariectomy
R. Khanna, R. M. Browne, A. D. Heiner, M. H. Clench, and J. R. Mathias G185

LETTERS TO THE EDITOR

The ins and outs of albumin-dependent hepatic uptake
E. L. Forker and Z.-S. Cai; A. Schwab and C. A. Goresky G191

No. 2. FEBRUARY 1992

Effects of f-Met-Leu-Phe-induced inflammation on intestinal lymph flow and lymphatic pump behavior
J. N. Benoit and D. C. Zawieja G199

Measurement of hepatic perfusion in rats by laser Doppler flowmetry
N. E. Almond and A. M. Wheatley G203

Intrinsic factor receptor activity and cobalamin transport in bile duct-ligated rats
S. Seetharam, K. S. Ramanujam, and B. Seetharam G210

TRH analogue microinjected into specific medullary nuclei stimulates gastric serotonin secretion in rats
H. Yang, R. L. Stephens, and Y. Taché G216

Effect of ethyl alcohol on motor function in canine stomach
L. C. Knight, A. H. Maurer, R. Wikander, B. Krevsky, L. S. Malmud, and R. S. Fisher G223

Vagal influence on colonic motor activity in conscious nonhuman primates
M. Dapoigny, V. E. Cowles, Y.-R. Zhu, and R. E. Condon G231

Nonadrenergic, noncholinergic inhibition and rebound excitation in canine colon depend on nitric oxide
S. M. Ward, H. H. Dalziel, K. D. Thornbury, D. P. Westfall, and K. M. Sanders G237

NaCl-dependent expression of amiloride-blockable Na^+ channel in *Xenopus* oocytes
C. Asher, D. Singer, R. Eren, O. Yeger, N. Dascal, and H. Garty G244

Phorbol esters stimulate and inhibit Cl^- secretion by different mechanisms in a colonic cell line
A. B. Vaandrager, N. van den Berghe, A. G. M. Bot, and H. R. de Jonge G249

Perturbation of regulated secretion in the pancreatic acinar cell line, AR42J
E. Sachs and J. D. Jamieson G257

Bile secretion of sulfated glycolithocholic acid is required for its cholestatic action in rats
F. Kuipers, M. J. Hardonk, R. J. Vonk, and R. van der Meer G267

Effect of somatostatin on mesenteric vascular resistance in normal and portal hypertensive rats
C. C. Sieber, P. G. Mosca, and R. J. Groszmann G274

Yersinia enterocolitica enteritis affects rabbit intestinal longitudinal smooth muscle function
R. B. Scott and D. T. M. Tan G278

Role of polyamines in glucocorticoid effects on pancreatic acinar AR42J cell growth and differentiation
C. D. Logsdon, F. Alves, and S. Rosewicz G285

Postnatal changes in the substance P receptor on rabbit gastric smooth muscle
P. E. Hyman, S. Kimura, T. Tomomasa, Q. X. Yuan, W. J. Snape, Jr., and J. A. McRoberts G291

Electrical and mechanical effects of acetylcholine and substance P in subregions of canine colon
K. D. Keef, S. M. Ward, R. J. Stevens, B. W. Frey, and K. M. Sanders G298

Endothelin$_B$ receptor on guinea pig small intestinal smooth muscle cells
M. Yoshinaga, Y. Chijiiwa, T. Misawa, N. Harada, and H. Nawata G308

[^{15}N]- and [^{14}C]glutamine fluxes across rabbit ileum in experimental bacterial diarrhea
S. K. Nath, P. Dechelotte, D. Darmaun, M. Gotteland, M. Rongier, and J. F. Desjeux G312

Intraluminal and intracellular phases of fat absorption are impaired in essential fatty acid deficiency
E. Levy, C. Garofalo, L. Thibault, S. Dionne, L. Daoust, G. Lepage, and C. C. Roy G319

Both crypt and villus intestinal goblet cells secrete mucin in response to cholinergic stimulation
T. E. Phillips G327

Role of capsaicin-sensitive afferent nerves in mucosal injury and injury-induced hyperemia in rat colon
F. W. Leung G332

Closure mechanisms of laryngeal vestibule during swallow
J. A. Logemann, P. J. Kahrilas, J. Cheng, B. R. Pauloski, P. J. Gibbons, A. W. Rademaker, and S. Lin G338

Activation of Kupffer cells on reperfusion following hypoxia: particle phagocytosis in a low-flow, reflow model
K. A. Lindert, J. C. Caldwell-Kenkel, S. Nukina, J. J. Lemasters, and R. G. Thurman G345

Differential intestinal deconjugation of taurine and glycine bile acid *N*-acyl amidates in rats
R. Zhang, S. Barnes, and R. B. Diasio G351

SPECIAL COMMUNICATIONS

Isolation of human colonic crypts for study of xenobiotics metabolism
M. Schwenk, P. Déchelotte, and T. Riemenschneider G359

RAPID COMMUNICATIONS

Transforming growth factor-β (TGF-β1) inhibits pancreatic acinar cell growth
